

**Creative:** Rapp: Patrick Murphy, Associate Creative Director; Sue Young, Senior Copywriter; Katie Benge, Senior Designer and Dianna van Nispen, Senior Planner.

How do you get major brands wanting to be part of the Yellow and White pages? Turn the pages into an **interactive digital billboard** that sits in every home in New Zealand.

**CODE YELLOW** uses the power of Yellow to link local advertisers and large brands via QR (quick response) codes. By scanning codes dotted throughout the pages with your mobile phone, you are instantly connected to info, offers and discounts from big brands. These are locally based, and relevant to your search. Better still, they can be regularly updated, creating ongoing conversations between brands and customers.

The result? Yellow **leaps categories into the digital space**, showing New Zealand's biggest brands that it's much more than just a print book.

1. Launch Code Yellow with giant QR code on the cover. When you scan it, the Code Yellow app is downloaded to your phone.
